Dear sirs,

I am a US citizen and I would like to respond to the proposed microsoft settlement. In the aftermath of the Enron debacle, we, as citizens, need our justice department more than ever to protect us from the avarice of big business. It's is clear to me, that this settlement does extremely little. It appears that the Attorney Generals are either scared of Microsoft or unduly influenced by Microsoft's money.

Microsoft has been found guilty of a crime. Now it's time for the punishment phase. Please punish Microsoft. The settlement as it currently stands does more to encourage Microsoft to continue its monopolistic practices than punish.

Hopefully, you've received enough letters by now to provide proper analysis and details to prove that this settlement is laughingly weak. I know my words are inadequate. But, Please understand, this is an emphatic, heartfelt plea to do right by your fellow citizens and punish a wrong doer.

Thank for your time and this public forum,
